PARASITOLOGY TODAY

REFERENCE EDITION

Volume 7

1991

CONTENTS

JANUARY

This Month
Memorable Responses 1

News and Comment
Macrophages at the Centre of Infection, *Caroline Ash* 2
Mathematical Models for Nematode Parasites of Ruminants, *M.G. Roberts* 4

Reviews
The Immune Recognition of Malaria Antigens, *E.M. Riley, O. Olerup and M. Troye-Blomberg* 5
Nematode Collagen Genes, *I.B. Kingston* 11

Focus
The Immune Dependence of Chemotherapy, *M.J. Doenhoff, J. Modha, J.R. Lambertucci and D.J. McLaren* 16
Triploidy in *Paragonimus westermani, H. Hirai and T. Agatsuma* 19
The Pathways of Energy Generation in Filarial Parasites, *P. Köhler* 21
***Plasmodium* and the Infected Erythrocyte:**
Erythrophagocytosis in Malaria: Host Defence or Menace to the Macrophage? *P. Arese, F. Turrini and H. Ginsburg* 25

Books
Health and Irrigation, Incorporation of Disease-Control Measures in Irrigation: A Multi-Faceted Task in Design, Construction and Operation, Volumes I and II, *M.W. Service* 28
Demography and Vector-Borne Diseases, *C. Vlassoff* 29
Medical Parasitology (3rd edn), *P. Prociv* 30
Parameter Estimation in Ecology, *M. Woolhouse* 30
Vaccination Strategies of Tropical Diseases, *D. Dunne* 31

FEBRUARY

This Month
Ticks: Vectors and Vaccines 33

News
Parasite Neurobiology, *D.W. Halton* 34
Hydatid and the Arctic, *P.M. Schantz, B. Gottstein, R. Ammann and A. Lanier* 35
Social and Economic Research in TDR: Future Directions, *C. Vlassoff* 37

Reviews
The Epidemiology of Lyme Borreliosis, *T.G.T. Jaenson* 39
Hydatid Disease in China, *P.S. Craig, L. Deshan and D. Zhaoxun* 46

Focus
Vertical Transmission of Helminths: Hypobiosis and Amphiparatenesis, *W.L. Shoop* 51
The Epidemiology and Economic Impact of Llama Parasites, *G. Leguía* 54
The Functional and Immunological Significance of some Schistosome Surface Molecules, *M.D. Wright, K.M. Davern and G.F. Mitchell* 56
Unique Roles for Lipids in *Schistosoma mansoni, S.T. Furlong* 59

Letter
Urinary Schistosomiasis and the Coming of Age in Nigeria, *O.B. Akogun* 62

Immunoparasitology Today

MARCH

Introduction
Co-evolution of parasites and adaptive immune responses, *Graham F. Mitchell* A2

Nonspecific defence
The acute phase protein response during parasitic infection, *Andrew W. Stadnyk and Jack Gauldie* A7
The involvement of TNF, IL-1 and IL-6 in the immune response to protozoan parasites, *Richard G. Titus, Barbara Sherry and Anthony Cerami* A13
Nonspecific defence mechanism: the role of nitric oxide, *F.Y. Liew and F.E.G. Cox* A17
Strategies of obligate intracellular parasites for evading host defences, *B. Fenton Hall and Keith A. Joiner* A22

Key Molecules
Molecular genetics of antigenic variation, *Piet Borst* A29
Antigenic polymorphism in malaria: is it an important mechanism for immune evasion? *Kamini N. Mendis, Peter H. David and Richard Carter* A34
Heat shock proteins in host–parasite interactions, *Barbara S. Polla* A38
Genetic control of innate resistance to mycobacterial infections, *Erwin Schurr, Danielle Malo, Danuta Radzioch, Ellen Buschman, Kenneth Morgan, Philippe Gros and Emil Skamene* A42
Life cycles A46

T-cell subsets
The role of IL-10 in crossregulation of T_H1 and T_H2 responses, *Tim R. Mosmann and Kevin W. Moore* A49
Regulation of the immune response in lymphatic filariasis and onchocerciasis, *Christopher L. King and Thomas B. Nutman* A54
Helper T-cell subsets in mouse leishmaniasis: induction, expansion and effector function, *Richard M. Locksley and Phillip Scott* A58
Regulation and biological function helminth-induced cytokine responses, *Fred D. Finkelman, Edward J. Pearce, Joseph F. Urban Jr and Alan Sher* A62

Immunoepidemiology
Naturally acquired immunity to *Plasmodium falciparum, Karen P. Day and Kevin Marsh* A68
Immunoepidemiology of lymphatic filariasis: the relationship between infection and disease, *Donald A.P. Bundy, Bryan T. Grenfell and P.K. Rajagopalan* A71
Helminths, immunology and equations, *Nicky Schweitzer and Roy Anderson* A76

APRIL

This Month
First Impressions of the Malaria Vaccine 63

News
Filarial DNA Probes in Jakarta, *L.A. McReynolds, C.B. Poole and S.A. Williams* 65
A Landmark in Food-borne Parasitic Zoonoses, *K.D. Murrell, J.H. Cross and C. Harinasuta* 68

Reviews
The P-glycoprotein Homologues of *Plasmodium falciparum*: Are They Involved in Chloroquine Resistance? *A.F. Cowman* 70
Viruses of Parasitic Protozoa, *A.L. Wang and C.C. Wang* 76

Letters
Cloning of Schistosomes, *F. A. Lewis* 81
Reply, *J. Jourdane* 81
Recent Contributions to New World Archaeoparasitology, *K. J. Reinhard* 82

Focus
Modulation of Host Cell Metabolism by *Trypanosoma cruzi, S.A. Morris, H.B. Tanowitz, J.P. Bilezikian and M. Wittner* 82
Avian Trypanosomes as Models of Hemoflagellate Evolution, *V. Apanius* 87

Techniques
The Use of Antisense Oligonucleotides as Chemotherapeutic Agents for Parasites, *C. Sartorius and R.M. Franklin* 90

Books
Principles and Practice of Infectious Disease (3rd edn), *G.C. Cook* 93
Appropriate Technology in Vector Control, *B. Dobrokhotov* 94

MAY

This Month
The Puzzle of Protist Organelles 95

Comment
Tropomyosin and Molecular Mimicry, *R.T. Damian* 96
Onchocerciasis Control in Nigeria, *L.D. Edungbola* 97

Reviews
On the Function of Repetitive Domains in Protein Antigens of *Plasmodium* and Other Eukaryotic Parasites, *L. Schofield* 99
The Evolutionary Origin of Glycosomes, *P.A.M. Michels and F.R. Opperdoes* 105

Parasitology Today Lecture
Molecular Genetics of Drug Resistance in *Plasmodium falciparum* Malaria, *T.E. Wellems* 110

Focus
Organelles of Protein Transport in *Giardia lamblia, F.D. Gillin, D.S. Reiner and M. McCaffery* 113
Do Parasites Express Receptors for Host Lipoproteins? *M.V. Rogers* 117
Inter-individual Variation in the Metabolic Activation of the Antimalarial Biguanides, *N.A. Helsby, W.M. Watkins, E. Mberu and S.A. Ward* 120

Letters
Memorable Responses, *S. Bennett* 123
Biological Control for Freshwater Snails, *C.E.A. Coimbra, Jr* 124
Reply, *H. Madsen* 124

Books
Atlas of Human Parasitology (3rd edn); An Atlas of Protozoan Parasites in Animal Tissues, *J. Williams* 125
Giardiasis (Human Parasitic Diseases Vol. 3), *R.C.A. Thompson* 125
Equipment for Vector Control, *C. Curtis* 126
Parasitism and Host Behaviour, *P. Hudson* 127
Safer Insecticides, Development and Use, *L. Strong* 127
Current Topics in Microbiology and Immunology: T Cell Paradigms in Parasitic and Bacterial Infections Vol. 155, *J. Langhorne* 128
Books Received 128

JUNE

This Month
Self-control 129

News
Euroleish II Workshop, *G. van Eys* 130

Comment
New Insights into the Structure of a *Trypanosoma cruzi* Protease, *J.H. McKerrow* 132

Reviews
Have Malaria Parasites Three Genomes? *R.J.M. Wilson, M.J. Gardner, J.E. Feagin and D.H. Williamson* 134

Rodent Trypanosomes: Their Conflict with the Immune System of the Host, *J.W. Albright and J.F. Albright* 137

Letters
Cytopathogenic Effect of *Giardia intestinalis, in vitro, L. Favennec, D. Magne and J-G. Gobert* 141
Sample Size in Parasitological and Vector Surveys, *R.J. Post and A.L. Millest* 141
Immune-facilitated Drug Action, *B. Ravindran* 141
Cloning of Schistosomes, *P. Webster and T.E. Mansour* 142

Focus
***Plasmodium* and the Infected Erythrocyte:**
The Survival of *Plasmodium* Under Oxidant Stress, *J. Golenser, E. Marva and M. Chevion* 142
Transovarial Transmission, *J.E. Smith and A.M. Dunn* 146
Comparison of Genes Encoding *Trypanosoma cruzi* Antigens, *A.C.C. Frasch, J.J. Cazzulo, L. Åslund and U. Pettersson* 148
The Discovery of *Angiostrongylus cantonensis* as a Cause of Human Eosinophilic Meningitis, *J.E. Alicata* 151

Books
The Natural History of Blackflies, *J.B. Davies* 154
Books Received 154

JULY

This Month
Cattle May More Safely Graze 155

News
BSP Malaria Meeting, *W. Richardson, S. Hillard, J. Brindle and D. Walliker* 156

Comment
Circular and Linear Multicopy DNAs in *Leishmania, K.D. Stuart* 158

Reviews
Immunity to the Liver Stage of Malaria, *A. Suhrbier* 160
The Interaction Between Intestinal Mucus Glycoproteins and Enteric Infections, *S-K. Tse and K. Chadee* 163

Letters
Culture, *in vitro*, of Nematodes of Veterinary Importance, *A.J. Small and G.C. Coles* 172
Malaria Vaccine, *M.R. Hollingdale* 172
Etymology of *Loa, J.D. Ruby and J.E. Hall* 173

Focus
Cell Surface Proteins of *Entamoeba histolytica, B.J. Mann and W.A. Petri, Jr* 173
Heligmosomoides polygyrus or *Nematospiroides dubius? J.M. Behnke, A.E. Keymer and J.W. Lewis* 177
Critical Stages in the Development of *Plasmodium* in Mosquitoes, *A. Warburg and L.H. Miller* 179

Applications
Parasites as Biological Tags, *M. Moser* 182

Books
Calcium as an Intracellular Messenger in Eukaryotic Microbes, *S. Krishna* 186
Basic Research in Helminthiases, *D. Wakelin* 186
Molecular Aspects of Immune Response and Infectious Diseases (Advances in Host Defense Mechanisms, Vol. 7), *P.M. Kaye* 187
Parasitic Diseases: Treatment and Control, *D. Bundy* 187
Immune Recognition and Evasion: Molecular Aspects of Host–Parasite Interaction, *D. Arnot* 188

AUGUST

This Month
Malaria Vaccines: While We Are Waiting 189

News
Consensus on *Trichinella spiralis* Antigens and Antibodies, *J.A. Appleton, R.G. Bell, W. Homan and F. van Knapen* 190

Comment
Pf155/RESA Is Not a Surface Antigen of *Plasmodium falciparum*-infected Erythrocytes, *K. Berzins* 193

Reviews
Chemotherapy of Filariases, *E.A. Vande Waa* 194
Plasmodium Sexual Stage Antigens, *P. Alano* 199

Letters
Role of Lipids in *Schistosoma mansoni*, *B. Fried and M.A. Haseeb* 204
Reply, *S.T. Furlong* 204
Cloning of Schistosomes, *E. James* 204

Focus
Proposed Link Between Cytokines, Nitric Oxide and Human Cerebral Malaria, *I.A. Clark, K.A. Rockett and W.B. Cowden* 205
The Dynamics of Antigenic Variation and Growth of African Trypanosomes, *J.D. Barry and C.M.R. Turner* 207
The Structure and Role of RNA Polymerases in *Plasmodium*, *D.J. Bzik* 211

Techniques
Application of 3-D Computer-aided Reconstruction in Parasitology, *F. Palluault, B. Pietrzyk, E. Dei-Cas and D. Camus* 215

Applications
Potential of Microsporidia for the Biological Control of Mosquitoes, *A.W. Sweeney and J.J. Becnel* 217

Books
Molecular Parasitology, *G.H. Coombs and A. Tait* 220
Hookworm Disease: Current Status and New Directions, *R. Sturrock* 220
A History of Human Helminthology, *V. Southgate* 221
Pesticide Resistance in Arthropods, *J. Lines* 222

SEPTEMBER

This Month
Vector Control: Making Predictions 223

News
Caenorhabditis elegans: a Model for Parasitic Nematodes, *R.E. Howells and I. Johnstone* 224

Comment
Rhoptry Lipids and Parasitophorous Vacuole Formation: a Slippery Issue, *K.A. Joiner* 226

Obituary
John Graham Scaife, 1934–1991, *D. Walliker* 227

Viewpoints
Towards a Population Genetics of Micro-organisms: The Clonal Theory of Parasitic Protozoa, *M. Tibayrenc and F.J. Ayala* 228
Malaria Parasites: Randomly Interbreeding or 'Clonal' Populations? *D. Walliker* 232
Population Genetics of Nonclonal, Nonrandomly Mating Malaria Parasites, *C. Dye* 236

Reviews
Development and Interactions of *Trypanosoma cruzi* Within the Insect Vector, *E.S. Garcia and P. Azambuja* 240
Morbidity, Due to Schistosomiasis Mansoni, and its Control in Subsaharan Africa, *B. Gryseels and A.M. Polderman* 244

Letters
Trypanosomes and Tomatoes, *M.J. North* 249
Reply, *J.H. McKerrow* 249
BSP Malaria Meeting, *T. Berendt* 250

Focus
Bovine Sarcocystosis: How Parasites Negatively Affect Growth, *R. Fayer and T.H. Elsasser* 250

Techniques
Nucleic Acid Techniques and the Detection of Parasitic Diseases, *S.M. Wilson* 255

Books
Books in Brief 259

OCTOBER

This Month
Parasites and Human T-cell Subsets 261

News
Filarial Worms: Targets for Drugs, *C.D. Ginger* 262

Comment
Parasites and Zoos, *L.G. Goodwin* 265
Host-related DNA Sequences in the Schistosome Genome? *A.J.G. Simpson and S.D.J. Pena* 266

Reviews
Mosquito Salivary Glands: Parasitological and Molecular Aspects, *A.A. James and P.A. Rossignol* 267
Human Filariasis:
Immunological Tolerance: The Key Feature in Human Filariasis? *R.M. Maizels and R.A. Lawrence* 271

Letters
Viruses of Parasitic Protozoa, *L.S. Diamond* 276
Reply, *A.L. Wang* 276

Focus
Why Do Some African Children Develop Severe Malaria? *B. Greenwood, K. Marsh and R. Snow* 277
Site-specific Retrotransposons of the Trypanosomatid Protozoa, *S. Aksoy* 281
Regulation of Gene Expression in Parasitic Flatworms, *R.B. Podesta and A.A. Siddiqui* 285

Application
Control of Tsetse Flies and Trypanosomiasis: Myth or Reality? *R.D. Dransfield, B.G. Williams and R. Brightwell* 287

Books
Bacterial Control of Mosquitoes and Blackflies (H. de Barjac and D.J. Sutherland, eds), *M. Service* 291
Modern Parasite Biology: Cellular, Immunological and Molecular Aspects (D.J. Wyler, ed.), *T. Holder* 292
Biological Control of Vectors: Manual for Collecting, Field Determination and Handling of Biofactors for Control of Vectors (J. Weiser), *C. Curtis* 293
Parasitic Helminths of Zoonoses in Africa (C.N.L. Macpherson and P.S. Craig, eds), *D. Jenkins* 293

NOVEMBER

This Month
Iron in the Cell 295

News
The Evolution of Virulence: Experimental Evidence, *A.F. Read and S.J. Schrag* 296

Reviews
The Development and Spread of Drug-resistant Malaria, *W.H. Wernsdorfer* 297
Schistosome Female Reproductive Development, *P.T. LoVerde and L. Chen* 303

Letters
BSP Malaria Meeting, *G. Langsley* 309
Spherical Bodies, *A. Kilejian* 309
Reply, *R.J.M. Wilson* 309

Focus
Pyronaridine: A New Antimalarial Drug, *S. Fu and S-H. Xiao* 310
Helper T-cell Subsets in Mouse Trichuriasis, *K.J. Else and R.K. Grencis* 313
Parasite Prevalence and Host Sample Size, *R.D. Gregory and T.M. Blackburn* 316
Human Filariasis:
A Model for the Dynamics of Human Lymphatic Filariasis, *B.T. Grenfell, E. Michael and D.A. Denham* 318

Books
Textbooks 323
Metazoan Life Without Oxygen (C. Bryant, ed.), *D. Lloyd* 324

DECEMBER

This Month
Limited Tolerance 325

News
The Bancroft Centre: A Tradition Continued, *P.F.L. Boreham* 326

Comment
Proposal For a Uniform Genetic Nomenclature in *Toxoplasma gondii, L.D. Sibley, E.R. Pfefferkorn and J.C. Boothroyd* 327

Reviews
The Influence of Parasites on Host Sexual Selection, *D.H. Clayton* 329
Phagolysosomal Escape by Intracellular Pathogens, *N.W. Andrews and P. Webster* 335

Letters
Rodent Malaria Models, *J.P. Vanderberg* 340
Reply, *A. Suhrbier* 340

Focus
Human Filariasis:
The Endemic Normal in Lymphatic Filariasis: A Static Concept, *K.P. Day* 341
Development of a Genetically Engineered Vaccine Against Poultry Coccidiosis, *J. Ellis and F. Tomley* 344
Vaccines Against Gastrointestinal Nematode Parasites of Ruminants, *D.L. Emery and B.M. Wagland* 347
Chronotherapy of Malaria: An Approach to Malaria Chemotherapy, *I. Landau, A. Chabaud, G. Cambie and H. Ginsburg* 350
Mammalian Immune Responses to Myiasis, *R.W. Baron and D.D. Colwell* 353

Books

Handbook of Medical Parasitology (2nd edn) (V. Zaman and L.A. Keong), *A. Wilson* 356
The Acari: Reproduction, Development and Life History Strategies (R. Schuster and P.W. Murphy), *J.W. Maunder* 356
Marine Fish Parasitology: An Outline (J. Grabda), *J.C. Chubb* 357
Pneumocystis carinii (J.M. Hopkin), *R. Miller* 357
Bird–Parasite Interactions: Ecology, Evolution and Behaviour (J.E. Loye and M. Zuk, eds), *C. Dye* 358
An Illustrated Book of Helminthic Zoonoses (I. Miyazaki), *W. Peters* 359
Books in Brief 359
Books Received 359

Author Index 363

Subject Index 367
